#### **Call to Order:**

Meeting called to order 6:00 PM

Minutes approved with corrections.

Web site redesign is on schedule. Beta is up and being reviewed by town departments.

Mike is investigating streaming video options. [EZstream](#) did a presentation at [NHCCM](#). They provide the ability to stream live events and deliver video on demand. Service will cost about \$2,500 per year.

Town was awarded Federal Government FEMA grant. Monies will be used to purchase and install video projector and scan converter in Town Hall Selectmen meeting room. This will facilitate electronic presentations during meetings and make them more legible on TV.

Satellite antenna used to receive NASA video is not working properly. Need to schedule repair.

Researched ability of town to assert copyright over the material it produces. From the [CENDI](#) site:

#### ***3.1.3 Does 17 [USC §105](#)<sup>60</sup> apply to works of State and Local Governments?***

No, it applies only to federal government works. State and local governments may and often do claim copyright in their publications. It is their prerogative to set policies that may allow, require, restrict or prohibit claim of copyright on some or all works produced by their government units.
